Solve the Halloween Word Problem with our Friend Skilful 🐌 Snail

1. There are ten Halloween candies in the jar. Jack ate three candies. Now how many candies are there in the jar?

$$\boxed{} \bigcirc \boxed{} = \boxed{}$$

There are ....candies in the jar.

2. Mumma bought two pumpkins for Halloween. Later daddy too bought five pumpkins. Altogether how many pumpkins are there now?

$$\boxed{} \bigcirc \boxed{} = \boxed{}$$

There .... pumpkins altogether .

Thank you for joining me. 🐌 Happy Learning
